GRAPHIC DESIGN IS AN Art

J.S Enterprises considers design to be a vital tool that offers more than just appearances. It is an element that plays a potential role in the success of any business and developing a long term relation with the potential customers. We believe in outdoing ourselves at every possibility and in every capacity and thus to far have offered nothing short of the best for our customers. Our modern equipment ensures the accuracy of colors through press view monitors and allows us to optimize and customize the content according to the project requirements.

- The umbrella of art department encompasses the squad of 3 creative brains and 4 proficient design experts.
- A good design creates a professional appearance that builds trust and credibility.
- Design creates visual language for content / brand consistent across different contexts.
- Design transforms attributes/qualities into coherent visual message.

PRE-PRESS

We have extensive experience in a wide range of digital pre-press solution to customers. With technical expertise, quick turnaround time and cost-effective work, to manage any kind of target oriented job on time. At **J.S Enterprises**, our pre-press production team is made up of experienced pre-press production professionals who use the latest software and technology.

Today's competitive environment with unrelenting financial pressures, demands no compromises which is why we don't! With a diligent focus on **business goals, dealings and budget requirements**, we craft the smartest solutions to help different market attain all:

- **99% accurate colours** - in harmony with your brand line all around the globe.
- **Customized colour profiles'** give us precise control over printing the same job on different materials and have the same results.
- **Spectrophotometer analysis** of colour applied on any material like fabric, plastic or paper gives us the exact LAB values to reproduce your products in exact manner during halftone reproductions.
- **Automated job tracking system**, professionally kept digital and physical data along with printed samples ensures smooth repeat runs.

ELASTIC MACHINES

TWILL TAPE

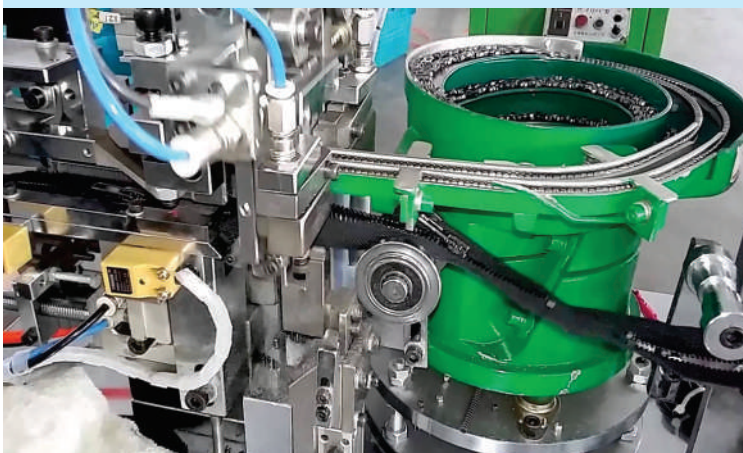

Twill Tape natural available in different sizes and we provide in multi shades too.

CORDS

This cord is made from natural cotton yarns. It's 100% biodegradable and free of chemicals. These yarns are mainly of decorative interest. They are made by introducing special forms of irregularities or hairiness into either spun or continuous filament yarns. Many different yarns of this type are available here.
